

## TEACHING THE FUTURE: CLIMATE ACTION & SUSTAINABILITY LISBON – PORTUGAL

Embark on a collaborative learning journey where we delve into the intricacies of Climate Action and Sustainability Education. Rooted in the framework of the Sustainable Development Goals (SDGs) and Global Citizenship, this course aims to equip educators with the knowledge and pedagogical tools necessary to ignite environmental stewardship within their schools and classrooms.

Set against the vibrant backdrop of Lisbon, this journey isn't just about classroom learning - it's a holistic experience that integrates the city's rich natural and cultural heritage.

### LEARNINGS

#### KNOWLEDGE

- › Key concepts and skills in sustainable development
- › Tools for teaching environmental sustainability in the classroom

#### SKILLS

- › Promote awareness of environmental sustainability and climate action
- › Identify appropriate pedagogical resources for facilitating environmental and climate initiatives in schools
- › Apply climate action techniques and tools to foster collaboration and active engagement within a whole-school approach
